URDU

From The Desk of Principal

For smooth and real learning in children, attention has to be paid to Self-Study. For this, there should be a routine of studying at home for at least one hour on each subject.

To maintain the qualities good student one need to maintain Punctuality, regularity, devotional, honesty and altermess in his habits.

Childeren should avoid private tuttion as it supresses their self-reliance towards studies and makes then dependent on other.

The main motto of the school towards the children is to promote self-motivation and develop positive thinking among the children through the use of Multipurpose activities.
